

# School Learning Plan

## October 2022/23

### THE CURRENT CONTEXT

Fraser River Middle School's doors opened in September 2016. We have grown rapidly and currently have a student population of 635 students between grades 6 and 8. Our school community has a wide range of cultural backgrounds and welcomes students from all over the world and those indigenous to Canada. For the first two years of FRMS, we focused our attention on building community because staff and students were coming together in the new building bringing with them a variety of school experiences. We decided in year three to continue with building community but to make our goal focused on integrated curricular areas. We continued with this goal for a period of four years. Last year, we placed an intentional focus on the First Peoples Principles of Learning within the cross-curricular goal. We believe that all students must feel safe and connected to make learning possible. All our students are learners and participants in this process. Equity, diversity, inclusion, and social-emotional learning are embedded into our work around our School Goals.

We conducted a consultation with Staff in the Spring of 2022 to determine what direction we should go with our School Learning plan. Staff identified the areas of Self-Regulation, Ownership, and Resilience as areas where they wanted to explore as a Staff with our students. We will use the Spiral of Inquiry Framework to help us explore these areas and answer three key questions: what is going on for our learners? how do we know? and why does it matter?

### OBJECTIVE: WHAT WE HOPE TO ACHIEVE

Our goal is to create a reflective and inclusive environment that celebrates diversity, fosters resilience and self-regulation, and recognizes individual strengths within our community of learners. Within this goal we wish to focus on developing:

- Identity as a learner
- Identity as a classroom community
- Identity as a school community

### DESIGN: HOW WE PLAN TO MEET OUR OBJECTIVE

#### Action Plan

*Class Reviews - Teachers to share class-wide goal in connection to SLP and their findings of baseline assessments*

*Numeracy Baseline Data Collection – Staff utilized District Curriculum Facilitator Josh Angolia*

#### Timeline

### SUCCESS INDICATORS: HOW WE WILL KNOW THAT OUR ACTIONS ARE HAVING THE DESIRED IMPACT

#### Key Results

- FRMS Students and Staff will be able to say that they feel connected and belong to the FRMS community (ex. Athletics, Clubs, Arts)
- Students will be able to report that they participate in social-emotional learning and about mental health
- Students will be able to report that they have engaged in learning self-regulation strategies
- Students will be able to report that they have engaged in learning the skill of resilience
- Students will improve literacy and numeracy skills
- Staff will be able to report proficiency within the scope of the goal and application within practice using a co-created self-assessment tool
- Work around the School Learning Plan is visible within the school
- We have established working relationships with community partners (ex. New Westminster Museum)

### COMMUNICATION: HOW WE WILL SHARE OUR LEARNING JOURNEY WITH OUR COMMUNITY
